

Nylon Hose

Product Material: PA6 Nylon

Product Color: Black (Gray, Orange, etc. are available)

Ambient Temperature: -40°C ~ 115°C, and can reach 150°C for a short time

Product Characteristics: Soft and tough, with medium wall thickness, shiny surface, anti-twisting, high mechanical strength, resistant to oil, alkali, weak acid, etc., abrasion-resistant, and the black color is ultraviolet-resistant.

Product Structure: Both the inside and the outside are wavy.

Usage Method: Insert the wire and cable into the tube and then use it in combination with a quick hose coupling.

Application Areas: Can be used in machine tools, power equipment, food machinery, automation instruments, electric motors, to protect cables and wires from external abrasion and provide insulation.

Product Certification: CE, ROHS, SGS, UL

Specification Model	Hose Specification (AD)	Inner Diameter × Outer Diameter (mm)	Static Bending Radius mm	Unit Packaging
PA6-AD10.0B	AD10	7.0×10.0	15	100
PA6-AD13.0B	AD13	10.0×13.0	20	100
PA6-AD15.8B	AD15.8	12.0×15.8	25	100
PA6-AD18.5B	AD18.5	14.3×18.5	35	50
